

**DIGITAL EDGE SEMINAR SERIES**

# Waveables, Wearables and Flyables: **YOUR BODY IS THE COMPUTER**

First there were PCs, then mobile devices. What's next? New advances use your body as the interface to create and consume media and journalism. Join us for a fun evening packed with hands-on experiences and demonstrations that sound like science fiction, but are already shaping the world of tomorrow.

## *Waveables*

Lorne Covington, responsive environment digital artist. Manipulate media using your hands and entire body as the user interface.
